

Declaration of Conformity

for liquid chemical admixture for reducing the shrinkage

KEMA NONSHRINK

KEMA NONSHRINK is liquid additive for concrete and cement mortar that efficiently reduces desiccation-caused shrinking. It can be used in all concrete and cement mortars. It is especially suitable for construction concretes and environments where cracks often appear due to desiccations and the consequences of cracks can be extremely harmful; bridge plates, parking garages, construction in the coastal area, industrial floorings, concrete reservoirs etc. and declared with technical properties from technical data sheet.

Manufacturer and the authorized representative established within the European Economic Area:

KEMA Puconci d.o.o.
Puconci 109,
9201 Puconci,
SLOVENIA

herewith declare that the product **KEMA NONSHRINK**

is controlled in accordance with existent foreign and national standards framed, within internal quality control of production.

in accordance with test report:

No. 12/08 from 6th of October 2011

Issued by:

Name and address of the testing laboratory:

Development laboratory KEMA Puconci d.o.o., Puconci 109, 9201 Puconci, Slovenia
