TECHNICAL DATA SHEET

KEMAPUR V 7200 FLEX 1K

Polyurethane 1K transparent varnish, shiny

PRODUCT DESCRIPTION

1-component transparent polyurethane resin, meant for varnish-over and protection of epoxy or polyurethane floor. Also intended for making stone carpets (QC SYSTEM - 0,3-0,8 mm grain size). Possible application is also in combination with various dry decorative Quartz Sands. It solidifeids using air humidity, also in thick layers. Due to its exceptional properties it is particularly suitable for outdoor use and as a final coating on the surfaces decorated with leaves KEMAPOX CHIPS. The final cured coating is characterized by high gloss and transparency, as well as excellent UV stability. Due to the flexibility the coating is also suitable as final coating on epoxy and polyurethane self levelling floors. WARNING: The product is not long lasting resistant on surfaces which are objected to car tire traffic.

INSTRUCTIONS FOR USE
